

SmartECR® Brings Fast, Low-Cost EMV to SAM4s Cash Registers

You've heard that EMV payment solutions can be expensive, hard to install, and slow. Not with SmartECR.

SmartECR® is a payment terminal that connects with your SAM4s cash register so you can accept EMV chip cards and digital wallets. If you're not using an EMV payment solution, you will be liable for any fraudulent payments made at your business.

UNLIKE MANY EMV SOLUTIONS, SmartECR IS:

- ✓ Easy to install, with a plug and play app
- ⌚ Fast, with 2.75-second transactions
- 💰 Low-cost, and for a limited time, **FREE**

BRIDGE BUSINESS INTELLIGENCE® PROVIDES VALUABLE DATA

Bridge Business Intelligence is an optional feature of SmartECR. Bridge gives you online access to real-time sales reports and pricing management tools from anywhere.

ACCEPT EMV IN HARD-TO-WIRE PLACES

SmartECR has a wireless option that uses the largest, most reliable data network in the U.S. to provide fast, secure processing wherever you do business. It's ideal for stadiums, kiosks, or outdoor events.

"I like SmartECR because it's seamless, functional, and affordable. It's also easy to implement. I highly recommend SmartECR."

Jack Daniels
YAS Enterprises
Canfield, Ohio

"I have been integrating cash registers and credit card payments for about twenty years now. In my experience, the SmartECR is the Holy Grail of ECR interfaces."

David Riley Jr.
National Business Systems
Kent, Washington
