

## Use Your Computer to Accept Credit Cards with Sterling VT

**STERLING VIRTUAL TERMINAL (VT) MAKES IT EASY FOR YOU TO TURN ANY INTERNET-CONNECTED PC OR LAPTOP INTO A LOW-COST, CONVENIENT WAY TO ACCEPT CREDIT AND SIGNATURE DEBIT CARD PAYMENTS.**

You simply open your Internet browser, log on to the Sterling VT homepage, and start processing payments quickly and securely. You can either key in credit card information or swipe cards with an optional card reader.

### The Benefits

**Sterling VT saves money.** No need to buy a credit card terminal, supplies or software – No commitments or long-term contract

**Sterling VT saves time.** No software to download or update – Two-second transaction times – Set up automatic, recurring payments for customers you bill on a regular basis

**Sterling VT gives you more features at a lower price.** Customizable data fields – Secure Customer Vault that stores card information for future processing – Daily e-mail on transaction activity – Powerful but intuitive reporting to manage finances

**Sterling VT offers flexible payment options.** Swiped, manual, credit, signature debit and gift card – Simply key in card info – Mail Order/Telephone Order transactions – All major cards accepted: Visa, MasterCard, Discover, American Express and JCB

System requirements – OS Windows 7 or above

### AN IDEAL PAYMENT SOLUTION FOR MANY BUSINESS TYPES

**Any business can benefit from Sterling VT's convenience and flexibility, but it is perfect for:**

- Retail and restaurant businesses
- Health care professionals, medical and dental clinics, veterinarian offices
- Businesses without a storefront, such as lawn and pool services and building contractors
- Vendors at tradeshows and special events
- E-commerce merchants whose customers purchase goods and services from a website
- Merchants who accept mail orders and telephone orders
